Bloomsbury Publishing PLC. Hardback. Book Condition: new. BRAND NEW, Everyday Examples: An Introduction to Philosophy, David Cunnig, "Free will: mental energy that poofs into existence from scratch?" In pairing key ideas from the history of philosophy with examples from everyday life and culture, David Cunnig produces a clear, incisive and engaging introduction to philosophy. Everyday Examples explores historical philosophy and the contemporary theory scene and includes ideas from both the analytic and continental traditions. This broad sweep of topics provides a synoptic overview of philosophy as a discipline and philosophizing as an activity. With examples drawn from everything from The Matrix and Sesame Street to sleepwalking, driving, dancing, playing a sport and observing animals, students are pointed to ways in which they can be a philosopher outside the classroom in the everyday world. As well as providing entertaining and relatable examples from everyday life, this book will be especially useful in the classroom, it is accessible and discussion-oriented, so that students can get first-hand practice at actually 'doing' philosophy. This accessibility does not come at the expense of rigour but, rather, provides a 'way in' to thinking about the major issues, figures and moments in the history of philosophy. The chapters are divided into brief sustainable nuggets so that students can get a definite handle on each issue and also be the expert for the day on a given section. There are suggested study questions at the end of each chapter that bring out the force of each side of the many different issues. An indispensable tool for those approaching philosophy for the first time.
