Manili Astronomicon Liber II (Classic Reprint)

By Marcus Manilius

Forgotten Books, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Manili Astronomicon Liber II The second book of the Astronomica is at once the longest and the most difficult. In this book Manilius passes from the popular astronomy with which he is occupied in Book I to the proper business of the mathematicus - to an astrology based on geometrical and arithmetical calculations. He passes, that is, from a subject moderately diverting to one difficult and repellent. Many students of Latin poetry make their way through the first book. A moderate scholar can understand it, and it has recently been well edited. But few, probably, of those who read the first achieve also the second book. The signorum lucentes undique flammae , the aa-rpcuv ofiriypis - all that is picturesque and inviting. But when we come on to triangles, quadrangles, hexagons, dodecatemories, and the dodecatemories of dodecatemories - then our faith in a Providence which has made the beautiful so hard begins to fail us. And not only is the second book hard, but the commentaries upon it are hard too. No one commentary suffices;...
