Feedaread.com, United Kingdom, 2011. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.A new president like Obama never knows until he gets into the Oval office just what his predecessor has really been up to. And in Paper Chain the new president finds a skeleton in the cupboard left there by his predecessor, a hardline right winger with a taste for war. Who could that be? Did the Pentagon really put a laser weapon in space? And, if so, did the President know? And if he did why won't he admit it? Could a bug from a space shuttle really turn America into a third world country? It could, and, in this eco-thriller, journalist Graham Mole tells how. No wood, no by-products like paper for dollar bills and cigarettes, no cellulose for TV or car tyres. Not even a contraceptive pill. Just how could you manage without paper? Could you get through a day without it? As Robert Redford agrees it's an important environmental concept And a chilling possibility. There's just one last question - is it fact or fiction? The author's not telling. But right now in America three bugs have already killed 10 of American forests. Is this really fiction?.
