Spring, United Kingdom, 2008. Paperback. Book Condition: New. 2nd. 204 x 140 mm. Language: English . Brand New Book. A collection of PATRICIA BERRY s writings published between 1972 and 1982, which together develop a style of psychotherapy that is based on the primacy of the image in psychical life. The book contains the often referred to but out-of-print essays An Approach to the Dream and What s the Matter with Mother? as well as newer papers. The style poetically concrete, the insights bolstered by clinical example, dream interpretation, and mythical references, each paper revises an important analytic construct: reductions, dream, defense, telos or goal, reflection, shadow so that it more adequately and sensitively echoes the poetic basis of the mind. One of the best available introductions to the fresh ideas now enlivening the practice of Jungian analysis. Of special interest to psychotherapists and to all concerned with myth, dream, and feminine studies. In addition, this new and revised edition includes Rules of Thumb Toward an Archetypal Psychology Practice, a text written in honor of James Hillman in 2008.
