MATLAB-based communication system simulation

Filesize: 5.5 MB

Reviews

Very useful for all group of people. It is amongst the most incredible pdf i actually have read through. Its been written in an extremely straightforward way and it is just right after i finished reading through this pdf by which basically modified me, change the way i think.
(Felicia Nikolaus)

MATLAB-BASED COMMUNICATION SYSTEM SIMULATION

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment.Pages Number: 162 Publisher: Beijing Aerospace University Press Pub. Date :2007-09. This book by a large number of MATLAB. Simulink simulation examples. the reader deepen the communication understanding of the principles. The book has six chapters. including the MATLAB language-based. Simulink-based simulation. signal analysis system based on digital transmission of analog signals. digital baseband signal transmission. digital transmission carrier modulation content. The key elements of each part of the MATLAB function or Simulink through the simulation module. Appendix lists all the functions provided in the toolbox communication and communication module library for readers to find all the modules. Book structured. easy to understand. Examples to help readers practice of communication theory and simulation to understand. This book can serve as institutions of higher learning communication engineering. electronics and information technology professional of the student s communication simulation specialist curriculum materials and reference books. Contents: Chapter 1 matlab language overview 1.1.1 matlab 1.1 matlab-based family development and characteristics 1.1.2 matlab 1.1.3 matlab 7.0 interface environment 1.2 matlab basic grammar and basic operation 1.2.1 Variable assignment matrix operations 1.2.3 1.2.2 1.2.4 Program control statements in the basic drawing methods 1.3 matlab Communications Simulation Exercises Chapter 2 Introduction 2.1 simulink simulink simulation-based family 2.1.2 simulink 2.1.1 simulink library 2.1.3 simulink basic module of the general course of 2.2 Modeling and Simulation simulink simulation applications in the communications practice Chapter 3 the basis of signal system analysis 3.1 Overview 3.2 Fourier transform and Fourier transform the nature of the main periodic signal of 3.2.1 3.2.2 Fourier transform and Fourier series the nature of power and energy 3.3 3.4 3.5 Gaussian random variable generation process of 3.6 Random processes and white noise power spectrum...
